THE MODERN LEGEND

LEGENDARY

The Sikorsky BLACK HAWK helicopter has earned its standing as the preferred utility aircraft of militaries worldwide. Designed to strict military standards, its ruggedness, dependability and versatility have made this aircraft a legend.

RELIABLE

More than 3,000 BLACK HAWK helicopters are in service today. This fleet has flown more than 10 million flight hours in some of the most rigorous conditions known, successfully completing missions ranging from utility transport, search and rescue, to combat assault armed support, and beyond.

SUPPORTABLE

Sikorsky brings together its OEM expertise along with unique experiences to support the BLACK HAWK helicopter. From spares, overhaul and repair to programs such as performance-based logistics, contractor logistics support and military depot partnerships, Sikorsky offers innovative services designed to increase flying time, improve ease of use and reduce cost of ownership, allowing you to focus on your mission.

READY

The Sikorsky S-70i™ BLACK HAWK is ready now to deliver its legendary and best in class mission performance. Backed by a world class training and support infrastructure, the S-70i BLACK HAWK helicopter has been configured by our team of military aviation experts to deliver the right capabilities for the right mission. From basic utility, to advanced combat search and rescue missions, the BLACK HAWK is ready now.

INDUSTRY-LEADING SERVICE AND SUPPORT

Sikorsky brings together its OEM expertise with the unique strengths of our leading aircraft service to provide innovative platform solutions to meet your demanding aviation service needs.

Pilot and Maintenance Training

- Basic to advanced courses
- Full motion flight simulator
- Virtual Cockpit Procedures Trainer to reinforce cockpit learning

Helotrac 2X Maintenance Management Tool

- Significantly reduces maintenance record keeping
- Manages inventory of spares
- Provides fleet availability metrics

Integrated Vehicle Health and Usage Monitoring System

- Speeds entry into service after maintenance by reducing maintenance workload

Interactive Electronic Technical Manuals (IETMS)

- Provide access to entire S-70i™ technical publications suite through an easily navigable and searchable Web-based application

24/7/365 Helpdesk Support

- Sikorsky technical help available 24 hours a day, 7 days a week, 365 days a year

STANDARD BLACK HAWK CONFIGURATIONS

Additional integrated options available for each configuration to increase mission capability.

	UTILITY	MULTI-MISSION	ADVANCED MULTI-MISSION	ADVANCED MULTI-MISSION +
GE-T701D Engines with Integral Particle Separator	•	•	•	•
Wide Chord Main Rotor Blades for Improved Performance	•	•	•	•

Triple Patient Litter System				•

Quick Install Options include:

Cargo Hook, 12th Troop Seat, Rotor Brake, Internal Auxiliary Fuel Completion, Mag-58 Window Gun mount, Fast Rope System (FRIES) and Rescue Hoist.

UNMATCHED SAFETY AND SURVIVABILITY

HELICOPTER SPECIFICATIONS

The modern S-70i™ BLACK HAWK helicopter incorporates advancements that connect this remarkable aircraft into the fast-pace, digital information world that exists today. So whatever your mission is, the BLACK HAWK helicopter will provide excellent support to your everyday needs.

With its state of the art and fully integrated digital glass cockpit, the BLACK HAWK helicopter brings unprecedented situational awareness demanded by today's complex mission environments.

The BLACK HAWK is available in four standard configurations designed to execute the full spectrum of today's mission requirements. From utility to complex combat search and rescue missions, the BLACK HAWK stands ready to deliver the legendary performance and superior value that has made it the aircraft of choice for the U.S. Army and 27 other nations around the world.
